Thinking Natural

Fresh Coop

Dust Bath

We take pride in providing natural solutions for the backyard flock owner.

Keep your flock's feathers clean and in top condition!

Many bird species find it important to take regular dust baths as part of their daily preening routine. Dust bathing is a great boredom buster and an important social activity. Bored chickens can become destructive to their environment or each other. **Fresh Coop® Dust Bath** was formulated to be the perfect granulation of food-grade diatomaceous earth (fossilized diatoms) and calcium montmorillonite (rich clay derived from volcanic ash) that absorbs excess oils, helping to keep your flock's feathers clean and in top condition.

Protect your gardens!

To keep your chickens from scratching in your flower beds and beautiful gardens provide dust baths for them. Add peat moss and dried herbs like Mint, Rosemary, Lavender, Basil, Thyme and Lemon Balm.

Dust bathing in chickens starts when chicks are only a few days old. Chicks hatched with their mother hen will begin to imitate her bathing behaviors. Encourage early activity by providing the chicks with a small pan of sand to practice with, ensuring it is shallow enough for the chicks to get into and out of.

Fresh Coop

DUST BATH

Is Fresh Coop® Dust Bath harmful if consumed?

Several dust bathing materials, including shavings, can be problematic if consumed. Negative implications can arise from the consumption of these materials, as they may accumulate in your bird's crop. However, unlike these other dust bathing options, **Fresh Coop® Dust Bath** is completely safe and will not cause any harm if consumed.

DUST BATH FOR YOUR BACKYARD POULTRY

Accessories

Nesting

Egg Flat - Pulp

Pulp egg flats maintain product freshness and have the added benefit of being biodegradable. Flats are blank. Fits small, medium, and large eggs.

Nest Eggs - Plastic

These plastic eggs are incredibly "lifelike". They are the same size, shape and texture as real eggs. Used for training chickens to lay eggs in nest.

KVS	Mfg.
071-002	Seven Oaks

Nesting Box

Made of high-density, impact resistant polyethylene that is easy to keep clean and will not rust, rot or corrode. Mounts securely on the wall with slide type screw holes. There are ventilation holes for fresh air and a sloped roof to prevent roosting.

KVS	Part	Brand	Mfg.
115-145	163620	Little Giant	Miller

Nesting Box - Deluxe Plastic

Made of impact-resistant polyethylene which is easy to clean and will not rust, rot, or corrode. The bottom basket is closed to prevent loss of bedding or eggs, but it features a hinged cover to allow easy access to eggs. The sloped roof prevents roosting. Hardware for wall mounting and complete assembly and mounting instructions are included. Impact-resistant polyethylene is easy to clean and will not rust, rot, or corrode. Bottom basket is closed to prevent loss of bedding or eggs. Hinged cover allows easy access to eggs. Sloped roof prevents roosting. Hardware for wall mounting and complete instructions included.

KVS	Part	Mfg.
115-159	PNB1	Little Giant

Nesting Box - Galvanized

Sides are made of galvanized steel for sturdiness while the top and roosting area are durable plastic that will not rust, rot or corrode. Amply sized, hen-friendly design features a front guard that prevents birds from scratching bedding out of the nest. Plastic bottom is ventilated and angled slightly so eggs won't roll out of the nest. Ships unassembled to save space and shipping costs.

Thinking Natural

Food-Grade
Diatomaceous Earth
& Citric Acid

Fresh Coop® Odour Control added directly to manure immediately stops the formation of ammonia. Take Fresh Coop® Odour Control home today and use it now on your dirty litter! No need to do a clean-out first!

Fresh Coop® Odour Control combines non-GMO citric acid with a naturally occurring blend of food-grade diatomaceous earth and calcium montmorillonite to reduce the moisture and pH of poultry litter.

Keep it dry!

Food-Grade Diatomaceous Earth is very porous and is a super absorbent mineral. DE will help keep your coop dry.

Chicken coops can smell bad!

Ammonia is the culprit of chicken coop odour. Ammonia is one of the most dangerous gases in the air. It can irritate an animal's eyes, lungs, sinuses, mouth and skin and make them more vulnerable to infection. Humans can also be harmed by high levels of ammonia.

Can be used with backyard:
Chickens, Pullets, Layers, Quail,
Ducks, Turkeys, Pigeons, and Pheasants

Your neighbors will think you just cleaned your COOP!

ODOUR CONTROL FOR YOUR BACKYARD POULTRY

Accessories

Odor Control

Fresh Coop Odor Control

Fresh Coop combines Diatomaceous Earth with Calcium Montmorillonite and NON-GMO Citric Acid to eliminate harmful ammonia levels, control odors and absorb moisture in your backyard chicken coop. Fresh Coop can be used with backyard chickens, pullets, layers, quail, ducks, turkeys, pigeons, and pheasants.

Feeders & Waterers

Founts

Fount - Galvanized - Heated Base - Allied

This Electric Heater Base helps prevent water from freezing in temperatures as low as 10 degrees F (-12 degrees C). Designed for use with Little Giant Double Wall Founts (Item Nos. 9832, 9833, 9835, and 9838, sold separately) and other all-metal containers. The heating element has been completely redesigned for improved safety and efficiency. The fully enclosed bottom adds another layer of protection. Perfect for unheated coops and barns; can be used outdoors in a dry, sheltered area. Made of heavy-duty, rust-resistant galvanized steel. Cord should be protected from animals and used with a Ground Fault Circuit Interrupter (GFCI) protected outlet. Unit will not draw electricity until temperature drops below freezing. Uses less than 1 amp per hour. 16.25 inch diameter by 3.687 inch high. CSA-certified in Canada.

Waterer - Hen Hydrator

This gravity-feed Hen Hydrator provides access to clean water on demand. The translucent bucket was designed to provide UV protection to prevent algae growth and allow for easy viewing of the water level. Lid fits tightly to prevent spills and protects contents while easy-to-remove fill plug allows for refilling without having to remove the entire lid. Each of the 2 nipples can accommodate up to 4 birds. Hanging height will vary by breed but should be high enough so that chickens must reach up slightly to drink. This waterer is recommended for adult birds only and is not recommend for use in freezing weather. For best results remove all other water sources, and tap each nipple so chickens can see water dripping. Acceptance of this watering method may take time but once a few birds begin to use it, others should follow. Holds 1 gallon.

Brooders

Chick Brooder

A safe observatory for brooding baby chicks up to four or five weeks old. Sturdy metal arm holds a brooder lamp (sold separately) over one side of the brooder. Chicks can move between the section of the brooder with solid metal walls and the section with wire grid walls to warm up or cool down as needed. Wire mesh floor has openings 5/16 in. apart which are just right for small chick feet, but you may want to put down paper towels or a piece of cardboard for the first week or so. Dropping pan slides in and out under the wire mesh floor for easy removal and cleaning. Easily assembled using a flathead screwdriver and the included hardware. Set up dimensions are 39.4 in. long x 18.7 in. wide x 23.6 in. high.
