## Hoof Treatment

### Hoof Care

#### Discs - Hoof

Abrasive disc. Standard. Hoof plate made of twisted steel dish with carbide assembly.

KVS	Info	Size	Part	Mfg.
376-869	Standard	114mm	16348	Kerbl

#### Discs - Super Abrasive

Abrasive disc. Standard. Hoof plate made of twisted steel dish with carbide assembly.

KVS	Info	Size	Part	Mfg.
281-879	Standard	125mm	16349	Kerbl

#### Discs - Zec

Top quality Abrasive disc. For cutting and cleaning hooves and claws. Wavy surface.

KVS	Size	Part	Mfg.
281-875	115mm	16271	Kerbl

#### Foot Rot Shears - Regular Blade

REGULAR BLADE - These shears offer reliable performance at an unbeatable price. Lightweight for easy handling, they come with a leather thong to keep shears closed in storage.

KVS	Case	Mfg.
376-717	6	Kerbl

#### Foot Rot Shears - Serrated Blade

SERRATED BLADE SHEARS - offer a little more "bite" on a hoof that is particularly tough. The serrated edge also helps secure the hoof when trying to make a cut at a sharp angle.

KVS	Case	Mfg.
376-718	6	Kerbl

#### Hoof Rasp

Used to smooth/shape horns or hooves. 14" self cleaning design, hardened to give long life.

KVS	Info	Size	Mfg.
281-025	Economy	14in	KVS

#### Hoof Trimmer - Compound

Compound Hoof Trimmer is designed using levers to give an 8:1 mechanical advantage. Advanced leverage allows shorter handles for use in tight spaces. Rubber handle grips are included. Hardened steel cutters help maintain edge.

KVS	Info	Mfg.
376-706		Kerbl
376-707	Replace. blade	Kerbl

## Hoof Treatment

### Hoof Care

#### Hoof Trimmer - Handy

30" Wooden-handled hoof trimmers are light-weight yet effective and easy to use. Handles allow operator to stand a safe distance away. Allows trimming of livestock hooves on standing animals. Hardened steel cutters help maintain edge.

KVS	Info	Size	Mfg.
172-145		30in	Milcare
172-147	Handle	22in	Milcare

#### Monodose Hoof Glue - Septicare II Bond Express

- Septicare II is very easy to use, no need to preheat.
- An optimal combination of 2 components for a maximum bond.
- Does not drip even when applied vertically.
- Dries even in extreme conditions.
- Can be applied and stored between 0C to 40C

KVS	Size	Mfg.
943-045	25ml	Ukal

## Instruments

### Calf Weaners

#### Weaner - Calf

For calves and young stock. Flexible material and a fixing screw ensure easy adjustment and a perfect fixing in the cattle's nose.

KVS	Info	Color	Size	Mfg.
376-021	Economy	Green	Medium	Kerbl
376-022		Yellow	Medium	Kerbl
376-024		White	Small	Kerbl

#### Weaner - Calf - Economy

Cattle weaner manufactured of flexible, lightweight, plastic, material featuring a wingnut screw tightening mechanism. Design ensures easy adjustment and a perfect fixing to the animal's nose. Nearly impossible to lose the weaner when applied properly.

KVS	Info	Color	Mfg.
128-176	Plastic	Green	Agri-Pro

#### Weaner - Calf - Large

Cattle weaner manufactured of flexible, lightweight, plastic, material featuring a wingnut screw tightening mechanism. Design ensures easy adjustment and a perfect fixing to the animal's nose. Nearly impossible to lose the weaner when applied properly.

KVS	Color	Size	Mfg.
376-025	Beige	Large	Kerbl

#### Weaner - Calf - Reusable

Cattle weaner. Bull Ring / Crown design featuring rugged plastic tines. Reusable & self piercing. Fastens with a hex head fixing screw. Can be applied with a bull ring applicator.

KVS	Pack	Mfg.
376-027	6	Kerbl

## Instruments

### Calf Weaners

#### Weaner - Crown

CROWN Style - is a bull ring with an added metal serrated "Crown" that causes discomfort to the udder when the animal tries to suck. Aluminum ring with a stainless steel plate. Will not rust or corrode. This weaner will stay in the nose until it is removed.

KVS	Info	Case	Mfg.
095-111	Calf	12	Boling
095-113	Cow	12	Boling

#### Weaner - Kant Suck

Weans calves by eliminating their ability to suck. Economical and efficient way to wean. Made of zinc plated steel plates that are fastened to the animals nostrils. The plate swings free, allowing the animals to eat and drink but stops sucking.

KVS	Size	Mfg.
076-115	Calf	Stone Mfg
076-117	Yearling	Stone Mfg
076-119	Cow	Stone Mfg

#### Weaner - Quiet Wean Nose Tags

A two-stage, low-stress method for weaning calves. Step 1: Calves wear a lightweight plastic, non-invasive nose-flap, which prevents them from nursing but allows the calves to graze and have full social and physical contact with their mother. This helps prepare both cows and calves for life after weaning by effectively reducing the bond between mother and young! Step 2: After calves have worn the anti-sucking device for a few (4-7) days, remove the nose-flaps and separate cows and calves as you would normally only now, without all the usual uproar! Calves bawl less, spend less time walking in search of mom, and spend more time eating. These quiet, calm cattle are much easier on fences too!

KVS	Info	Mfg.
930-001	25 pieces	JDA Livestock
930-002	5 pieces	JDA Livestock

## Castration

#### Bander - California

The California Bander is the fastest, easiest band castration tool you have ever used! The California Bander is designed to reduce the time and effort associated with castrating older animals. With this tool you are able to band in just a few easy steps.

KVS	Info	Size	Pack	Mfg.
799-001	Bander			Inosol
799-002	Rings	6 in	25	Inosol

#### Bander - Callicrate

The Callicrate Bander is a bloodless type ligation castrator. It has been successfully used on 1200lb animals. The theory behind this product is simple: leave the animal "intact" and his own free testosterone will greatly increase his growth, feed consumption.

KVS	Info	Pack	Mfg.
324-301	Kit		No-Bull
324-302	Loops	1	No-Bull
324-309	Loops - (EC)	25	No-Bull
324-303	Loops - (EC)	100	No-Bull
324-305	Cutter Tool		No-Bull
324-307	String		No-Bull

## Instruments

## Castration

**Bander - Eze Bloodless Castrator - T1**

This fast and easy to use castrator has a bloodless procedure which causes very little stress and minimal discomfort to the animal. Works on any sized animal. Made of Stainless Steel

KVS	Info	Size	Mfg.
615-002	Kit		S&J Tools
615-006	Bands w/ Clips	25s	S&J Tools
615-009	Latex Tubing	13ft	S&J Tools
615-007	Clips	25s	S&J Tools

**Bander - Pro - Kit**

The Callicrate PRO Bander Kit is a high quality tool from No Bull used for humane non-surgical castration. It works well on any size bull (300 lbs - 3000 lbs). The PRO Bander is lighter weight and easier to use than the previous Callicrate bander. Kit includes: bander, storage case, 5 loops, and cutter. High Tech-Built to Last-Callicrate Tough!

KVS	Info	Case	Mfg.
324-501	Kit	1	No-Bull
324-502	1 Loop	100	No-Bull

**Bander - Tri Bander Castrator**

Bands open bigger and are two times stronger than standard bands. Designed especially for calves up to 400lbs or three to four months of age. Tests show that banding causes less stress than any other method of castration, and that means bigger average daily gains.

KVS	Info	Pack	Mfg.
615-001	Bander		S&J Tools
615-005	Bands	25	S&J Tools

**Bander - Wee Bander**

No-Bull Enterprises is unveiling the next generation of innovation in bloodless castration with the Callicrate WEE Bander. It has been designed to provide humane, user-friendly technique to newborn calves, sheep and goats. Wee Bander kit includes: Bander, Callicrate loop stretcher, and 5 Wee Bander loops. The Wee Bander Loops are sold in packs of 25 only.

KVS	Info	Pack	Mfg.
324-310	Bander		No-Bull
324-312	Loops	25	No-Bull

**Bander - XL Castrator**

The XL is ideal for bulls from 250 to 750lbs. It requires no tightening of any kind. Simply spread the band open with the easy to use applicator, slip the band into place, and release it. The XL can also be used on horns and tails.

KVS	Info	Pack	Mfg.
615-003	Bander		S&J Tools
615-008	Bands	25	S&J Tools

**Castrating Knife - Newberry**

Stainless steel construction with a 2" razor sharp blade. The Newberry knife slits the scrotum top to bottom allowing easy access to the testes. This type of cut improves drainage, and reduces post castration swelling, facilitating faster healing.

KVS	Info	Mfg.
012-114	Knife	Stone Mfg
012-115	Blade	Stone Mfg

**Castrating Knife With Hook**

A simple yet effective tool for castration. Made from corrosion resistant stainless steel. It folds up for safety.

KVS	Case	Mfg.
048-410	12	Colorado Serum

## Instruments

### Dehorner Tube

Tube dehorning works best for calves under 60 days of age. Select a tube dehorner that is approximately 1/8" larger in diameter than the base of the bud.

KVS	Size	Mfg.
048-402	1in	Colorado Serum
048-403	3/4in	Colorado Serum
048-404	7/8in	Colorado Serum

### Electric Dehorner - 2way

Made out of branding iron material, the L & H Two-Way heats up fast. It features two different sized holes (3/4" & 1") so with a turn of the wrist you have the right sized tool in your hand, hot & ready to go.

KVS	Mfg.
064-002	LH Mfg

### Electric Dehorner - ID

Made from the same quality branding iron material as the 2 way, but features just the 1 inch head.

KVS	Size	Mfg.
064-004	1in	LH Mfg

### Express Pistol - Gas Dehorner

Very light (550g with gas cartridge) and compact, the Express cattle dehorner is the ideal product for producers who want to look after their livestock humanely. Designed by the Guilbert Express R&D departement. It can be used in every position. With 470W power, the Express dehorner is ready for use in less than 3 minutes! Quick dehorning - less than 30 seconds per horn-core. Equipped with an integrated Piezo ignition system, extremely easy to use. The Express dehorner is Cordless and has an autonomy of approx 2h. It is entirely safe for a use in a wet environment. No visible flame. Painless for the animal and safe for the user.

KVS	Info	Size	Mfg.
943-610	Dehorner		Express
943-612	Gas Cartridge	110ml	Express

### Horn Weights

Two-piece clamp-type weights made of heavy cast iron. Simple to attach but almost impossible to lose because of the locking arrangement. Weights stay firmly anchored to the horns by means of tapered points in each half of the weight. Two machine bolts with lock washers hold weights on.

KVS	Size	Mfg.
012-200	1/2lb	Stone
012-205	3/4lb	Stone
012-210	1lb	Stone
012-215	1 1/2lb	Stone

## Dentistry

### Speculum - McPherson

A new redesigned high quality stainless steel equine mouth speculum manufactured by Western Instrument Company. The stainless steel production includes improved cups, lower and upper jaw braces, and adjustable ratchets.

KVS	Mfg.
048-111	Colorado Serum

### Stomach Pumps

#### Cattle Pump System

The Springer Magrath Cattle Pump System includes everything needed to administer accurate dosage of both light and heavy-viscosity fluids to adult animals. A must for post-calving drenches and tonics, and for administering electrolytes, nutrient mixes, mineral oil, or medications. Also effective for hydrating cattle for better response to antibiotics or vaccinations. Professional-quality system designed to be operated by one person, with a pump that requires only seven strokes per gallon. Features a 36-inch flexible stainless-steel esophageal probe that utilizes the natural extended neck position of the bovine to bypass the trachea and deliver the probe into the stomach, with a unique teardrop end for easy passage. Attached nose lead effectively holds the probe in place; built-in stop action reduces chances of regurgitation. System includes probe and attached nose lead, chrome-plated brass pump with hand grip, and 6-foot oil-resistant hose with screw-on brass fittings, all in a canvas carrying case. Built to last, designed for easy replacement of plunger and valve.

KVS	Info	Size	Brand	Mfg.
055-300	with 3' probe	300-900lbs	Magrath	Miller
055-500	with 5' probe	901lbs +	Magrath	Miller

#### Stomach Pump - Plated

Heavy Duty brass construction. Nickel plated to resist corrosion. Used to draw fluid out of the stomach. Draws on both the up and down strokes. (stomach tube sold separately) Can be reversed to use as a drencher.

KVS	Info	Mfg.
048-051	Pump	Neogen

### Stomach Tubes

#### Stomach Tube

Stomach tubes feature smooth beveled ends, so that they may be safely inserted into the animals esophagus. Made from clear polyethylene tubing.

KVS	Size	Mfg.
046-401	3/8" x 10ft	Goodall

#### Stomach Tube - Lambing

Tapered rubber tube for attaching to 60cc syringe.

KVS	Mfg.
056-035	KVS

### Tail Dockers

#### Tail Docker - Battery

The Vink tail docker is a rechargeable battery operated unit capable of reaching a very high temperature in only 10 seconds and stays hot (approximately 1200°F) for about 12 minutes. Dock 80+ piglets on a fully charged battery. Keep extra on hand to finish all litters. Sharp blade ensures safe and effective cauterizing cuts, eliminating excessive bleeding and infection. Comes with two rechargeable batteries and a 110V charger. Spare blades, batteries and charger units available.

KVS	Info	Mfg.
128-202	Blade	Agri-Pro

## Instruments

### Tail Dockers

#### Tail Docker - Butane

Butane powered tail docker. Used for docking tails on baby pigs. Heats up to 850F. The hot cutting edge cauterizes as it cuts reducing bleeding and infection. Up to 90 minutes of burning time on one butane cartridge.

KVS	Info	Mfg.
147-911	Tail Docker	Cotran
147-001	Burner Cartridge	Cotran
147-910	Blade	Cotran

#### Tail Docker - Piglet

The stainless steel construction with sharp, clean cut and slide spring action handle make these notchers ideal for identification purposes.

KVS	Part	Mfg.
376-510	221	Kerbl

## Thermometers

#### Thermometer

This heavy-duty thermometer has Fahrenheit and Celsius scales with handy ring top for attaching a string.

KVS	Case	Mfg.
147-073	12	Cotran

#### Thermometer - Digital

Very accurate; beeps when reading is ready. Safe - no glass. Auto shut off.

KVS	Info	Case	Mfg.
239-033	Celsius	6	Almedic
239-066	Fahrenheit	6	Almedic

#### Thermometer - GLA M700 Parts

Replacement parts for the M700 unit. M700: Accurate to within 1/10th of a degree. Temperature range is 0 degrees to 150 degrees Fahrenheit. 8-15 second temperature reading with solid state electronic construction and rechargeable NiCad battery. Machined aluminum and stainless steel construction.

KVS	Info	Mfg.
283-105	Probe - Straight	GLA
283-106	Probe - Angled	GLA
283-110	Nicad Battery	GLA
283-115	Charger -110v	GLA

#### Thermometer - GLA M900

The M900 is the first major redesign for a GLA since 2005. The M900 is designed to be used in feedlots, dairies, universities and pharmaceutical studies. The M900 is smaller and lighter, while maintaining the durability that you expect from a GLA Thermometer, with an anodized aluminum box and sealed USB charger port. It features a LCD backlit display with battery life and charging icons on the main screen. With an extended battery life, you can even check the remaining battery % on your screen.

### Sling - Calf Scale

Durable, light weight, heavy gauge, rip-stop nylon. Performs very well in cold temperatures - remains flexible and won't crack. Coated on one side with a urethane for waterproofing. Maximum capacity: 175lbs.

KVS	Mfg.
058-041	Splasher

## Tapes

### Scrotal Metric Measuring Tape

Ideal scrotal measuring tape is a special tape designed to measure the circumference of the scrotum (especially in young bulls).

KVS	Mfg.
034-600	Neogen

### Weigh Tape

Measure the chest girth to estimate weight. DAIRY - 3 separate scales for Holstein, Guernsey and Jersey's. BEEF - estimates the weight for feeder and beef breeding cattle. HORSE and PONY - estimates weight as well as showing height in "hands". Hog- estimates weight of hogs from 125 to 260lbs. All weigh tapes are made of "Tyvek" material that will not tear, stretch, rot or mildew. GOAT: See instructions for proper use.

## Calves

### Calf Coat - Premium

Soft and sturdy. Excellent fit and flexible size adaptation thanks to adjustable flexible belly guard, leg strap and Velcro fasteners on the chest. Supports the immune system during the first few days and prevent diarrhoea problems and other illnesses. Protection from sudden changes in the weather, and of cold stress in new-born calves. Calves generally wear for 3 to 4 weeks, and longer if necessary. Machine washable at 30 °C.

943-796	Large	Ukal
943-797	X-Large	Ukal
943-798	XX-Large	Ukal

## Gloves - Latex

The entire surface of the glove features a textured finish, which gives you a strong grip when working in wet, or dry conditions. If you're working with formaldehyde, chlorine, or iodine these gloves have the chemical resistance you need on the job. Latex gloves feature chemical resistance against most acids and bases. These gloves also feature better puncture resistance than vinyl, and more elasticity than nitrile. Gloveworks Powder Free gloves are commonly used for painting, janitorial, food service, and industrial applications.

## Gloves

### Gloves - Nitrile - Green-Dex Biodegradable

The inventors of the world's first disposable nitrile glove, N-DEX®, now bring you the world's first biodegradable disposable nitrile glove, GREEN-DEX™. Showa Best Glove's Research & Development reaches a major breakthrough with ECO BEST TECHNOLOGY™ (EBT). EBT accelerates the biodegradation of nitrile in biologically active landfills and anaerobic digesters as validated by independent certified laboratories using internationally recognized test methods. EBT is composed of organic materials designed to make GREEN-DEX™ attractive to microbial activity. These microorganisms upon consuming the EBT material excrete enzymes that depolymerize the nitrile. The final result is biogases and inert humus.

### Gloves - Nitrile - Heavy Duty

AMMEX GlovePlus Black Nitrile is a premium industrial grade nitrile glove; that is 50% thicker than standard nitrile gloves with three times the puncture resistance versus latex or vinyl gloves. As a result, these black nitrile gloves are durable and last longer, so fewer glove changes are required. GlovePlus Black Nitrile gloves feature superior chemical resistance against common chemicals, like carburetor cleaner, and many other specialty chemicals, such as iodine and butane, that you may encounter on the job. The glove holds up to brake fluid and, even after being dipped in gasoline, stays true to form.

### Gloves - Nitrile - Super Heavy Duty

Gloveworks Heavy Duty Orange Nitrile gloves feature a true raised diamond texture for incredible grip. The bold, high visibility orange color really stands out and enhances safety. Gloveworks Heavy Duty Orange Nitrile has the dexterity of a 7 mil glove, but due to the enhanced texture, has the durability of a 10 mil glove. The perfect balance of better dexterity and better protection. This glove features excellent chemical resistance from common chemicals, like pesticides and many other specialty chemicals, such as iodine, brake fluid or butane. It is also powder free for working with sticky adhesives or wet paint so that no residue from your gloves can get in the way of a perfect finish. Gloveworks Heavy Duty Orange Nitrile gloves are commonly used for automotive, manufacturing, janitorial, plumbing, paint shops, heavy duty and industrial applications. Perfect for use in the milking parlour.

### Gloves

#### Gloves - Nitrile - X3

X3 Nitrile is an industrial grade, blue, disposable glove commonly used for food processing, janitorial, manufacturing, automotive and industrial applications. X3 gloves are also FDA approved for food service. The gloves have a texture on the palm, fingers and finger tips to enhance gripping power in wet and dry conditions. It holds up to fluids like gasoline, paint remover, rubber solvent, butane, and many more chemicals you may encounter when getting the job done. The glove is powder free to keep your wet paint finishes and perfect seals free from contaminants, so your disposable gloves don't leave a trace. Nitrile contains no latex proteins, so even those with latex allergies can benefit from the glove's features.
