MADE IN ITALY

Bovi-Bond
The 30 Second Block Adhesive

Hoof Treatment

Hoof Care

Block - Hard Wood

Hardwood hoof block for use with bovine hoof adhesive. Made in Canada of Cherry wood.

KVS	Size	Case	Mfg.
878-001	5 1/8 x 2 3/16	68	KVS

Bovi-Bond - Adhesive

Bovi-Bond is a state of the art fast-setting adhesive used to glue rubber and wood blocks to bovine hooves. This strong adhesive sets quickly and secures a solid bond. It's unique chemistry possesses no odors. Simply dispense to the block and position against the hoof. No mixing is required and no waste is produced. Bovi-Bond may be stored cold or warm and possesses a one year shelf life.

KVS	Info	Size	Part	Mfg.
877-139	Glue only	50cc Cartridge	46139	Vettec Inc.
877-130	Glue only	180cc Cartridge	46130	Vettec Inc.

Bovi-Bond - Adhesive - Soft

This adhesive provides the same strong bond as the original product, but cures softer to reduce sole bruising and increase bovine comfort. Bovi-Bond Soft is two times softer than the original adhesive and offers a great alternative for thin-soled cows. Sets in 30 seconds!

KVS	Size	Part	Mfg.
877-170	180cc Cartridge	46170	Vettec Inc.

Bovi-Bond - Block - Rubber

Rubber Blocks provide unsurpassed traction and comfort on wet and slippery surfaces.

KVS	Size	Case	Part	Mfg.
877-133	3/4in	50	46133	Vettec Inc.

Discs - Coarse - Philipson

Super Abrasive disc. Low density disc ensures more hooves can be treated before cleaning is necessary.

KVS	Info	Size	Part	Mfg.
376-868		5in	16344	Kerbl

Discs - Hoof

Abrasive disc. Standard. Hoof plate made of twisted steel dish with carbide assembly.

KVS	Info	Size	Part	Mfg.
376-869	Standard	114mm	16348	Kerbl

Discs - Super Abrasive

Abrasive disc. Standard. Hoof plate made of twisted steel dish with carbide assembly.

KVS	Info	Size	Part	Mfg.
281-879	Standard	125mm	16349	Kerbl

Discs - Zec

Top quality Abrasive disc. For cutting and cleaning hooves and claws. Wavy surface.

KVS	Info	Size	Part	Mfg.
281-875		115mm	16271	Kerbl

Foot Rot Shears - Regular Blade

REGULAR BLADE - These shears offer reliable performance at an unbeatable price. Lightweight for easy handling, they come with a leather thong to keep shears closed in storage.

KVS	Info	Case	Mfg.
376-717		6	Kerbl

Foot Rot Shears - Serrated Blade

SERRATED BLADE SHEARS - offer a little more "bite" on a hoof that is particularly tough. The serrated edge also helps secure the hoof when trying to make a cut at a sharp angle.

KVS	Info	Case	Mfg.
376-718		6	Kerbl

Hoof Treatment

Hoof Care

Hoof Knife - Folding - Sheep

Folding hoof knife for sheep with wooden handle.

KVS	Part	Mfg.
376-602	2717	Kerbl

Hoof Knife - Sheep

Top quality hoof knife with wood handles, for sheep.

KVS	Info	Part	Mfg.
376-601	Double Edge	2716	Kerbl

Hoof Nipper

Economical, drop forged with coated handles.

KVS	Info	Size	Mfg.
212-002	Economy	14in	KVS

Hoof Rasp

Used to smooth/shape horns or hooves. 14" self cleaning design, hardened to give long life.

KVS	Info	Size	Mfg.
281-025	Economy	14in	KVS

Hoof Trimmer - Compound

Compound Hoof Trimmer is designed using levers to give an 8:1 mechanical advantage. Advanced leverage allows shorter handles for use in tight spaces. Rubber handle grips are included. Hardened steel cutters help maintain edge.

KVS	Info	Mfg.
376-706		Kerbl
376-707	Replace. blade	Kerbl

Hoof Trimmer - Handy

30" Wooden-handled hoof trimmers are light-weight yet effective and easy to use. Handles allow operator to stand a safe distance away. Allows trimming of livestock hooves on standing animals. Hardened steel cutters help maintain edge.

Weaner - Calf - Quiet Wean

A two-stage, low-stress method for weaning calves. Step 1: Calves wear a lightweight plastic, non-invasive nose-flap, which prevents them from nursing but allows the calves to graze and have full social and physical contact with their mother. This helps prepare both cows and calves for life after weaning by effectively reducing the bond between mother and young! Step 2: After calves have worn the anti-sucking device for a few (4-7) days, remove the nose-flaps and separate cows and calves as you would normally only now, without all the usual uproar! Calves bawl less, spend less time walking in search of mom, and spend more time eating. These quiet, calm cattle are much easier on fences too!

KVS	Pack	Mfg.
930-001	25	JDA Livestock

Weaner - Calf - Reusable

Cattle weaner. Bull Ring / Crown design featuring rugged plastic tines. Reusable & self piercing. Fastens with a hex head fixing screw. Can be applied with a bull ring applicator.

KVS	Pack	Mfg.
376-027	6	Kerbl

Weaner - Crown

CROWN Style - is a bull ring with an added metal serrated "Crown" that causes discomfort to the udder when the animal tries to suck. Aluminum ring with a stainless steel plate. Will not rust or corrode. This weaner will stay in the nose until it is removed.

Stomach Pumps

Cattle Pump System

The Springer Magrath Cattle Pump System includes everything needed to administer accurate dosage of both light and heavy-viscosity fluids to adult animals. A must for post-calving drenches and tonics, and for administering electrolytes, nutrient mixes, mineral oil, or medications. Also effective for hydrating cattle for better response to antibiotics or vaccinations. Professional-quality system designed to be operated by one person, with a pump that requires only seven strokes per gallon. Features a 36-inch flexible stainless-steel esophageal probe that utilizes the natural extended neck position of the bovine to bypass the trachea and deliver the probe into the stomach, with a unique teardrop end for easy passage. Attached nose lead effectively holds the probe in place; built-in stop action reduces chances of regurgitation. System includes probe and attached nose lead, chrome-plated brass pump with hand grip, and 6-foot oil-resistant hose with screw-on brass fittings, all in a canvas carrying case. Built to last, designed for easy replacement of plunger and valve.

Water Proportioning Injector

Dosmatic DP20-2 Plus

Proportional positive displacement ensures that just the right amount of chemical is injected each and every time, regardless of pressure and flow. An adjustable ratio sleeve allows you to change the percentages to meet your injection needs. Chemical costs are reduced because of less waste in the injection process.

Dosmatic MiniDos 1%

The Dosmatic MiniDos low-mid flow, fluid (water)-driven proportional injectors offer a low-cost alternative to traditional, non-electric technology. These compact injectors have a wide range of injection ratios. Unlike traditional electric pumps, the MiniDos Injectors eliminate the need for electricity and can operate in remote areas. They are easy to install and maintain, making them ideal for low-mid-flow injection applications. These injectors can dispense a wide range of solutions from medications, fertilizers, fungicides, pesticides, disinfectants and algacides.

Calves

Calf Coat - Premium

Soft and sturdy. Excellent fit and flexible size adaptation thanks to adjustable flexible belly guard, leg strap and Velcro fasteners on the chest. Supports the immune system during the first few days and prevent diarrhoea problems and other illnesses. Protection from sudden changes in the weather, and of cold stress in new-born calves. Calves generally wear for 3 to 4 weeks, and longer if necessary. Machine washable at 30 °C.

Gloves

Gloves - Latex

The entire surface of the glove features a textured finish, which gives you a strong grip when working in wet, or dry conditions. If you're working with formaldehyde, chlorine, or iodine these gloves have the chemical resistance you need on the job. Latex gloves feature chemical resistance against most acids and bases. These gloves also feature better puncture resistance than vinyl, and more elasticity than nitrile. Gloveworks Powder Free gloves are commonly used for painting, janitorial, food service, and industrial applications.

971-019	Powder-Free	Ivory	X-Large	100s	10	Ammex

Gloves - Nitrile - Heavy Duty

AMMEX GlovePlus Black Nitrile is a premium industrial grade nitrile glove; that is 50% thicker than standard nitrile gloves with three times the puncture resistance versus latex or vinyl gloves. As a result, these black nitrile gloves are durable and last longer, so fewer glove changes are required. GlovePlus Black Nitrile gloves feature superior chemical resistance against common chemicals, like carburetor cleaner, and many other specialty chemicals, such as iodine and butane, that you may encounter on the job. The glove holds up to brake fluid and, even after being dipped in gasoline, stays true to form.

Gloves

Gloves - Nitrile - Super Heavy Duty

Gloveworks Heavy Duty Orange Nitrile gloves feature a true raised diamond texture for incredible grip. The bold, high visibility orange color really stands out and enhances safety. Gloveworks Heavy Duty Orange Nitrile has the dexterity of a 7 mil glove, but due to the enhanced texture, has the durability of a 10 mil glove. The perfect balance of better dexterity and better protection. This glove features excellent chemical resistance from common chemicals, like pesticides and many other specialty chemicals, such as iodine, brake fluid or butane. It is also powder free for working with sticky adhesives or wet paint so that no residue from your gloves can get in the way of a perfect finish. Gloveworks Heavy Duty Orange Nitrile gloves are commonly used for automotive, manufacturing, janitorial, plumbing, paint shops, heavy duty and industrial applications. Perfect for use in the milking parlour.

Gloves - Nitrile - X3

X3 Nitrile is an industrial grade, blue, disposable glove commonly used for food processing, janitorial, manufacturing, automotive and industrial applications. X3 gloves are also FDA approved for food service. The gloves have a texture on the palm, fingers and finger tips to enhance gripping power in wet and dry conditions. It holds up to fluids like gasoline, paint remover, rubber solvent, butane, and many more chemicals you may encounter when getting the job done. The glove is powder free to keep your wet paint finishes and perfect seals free from contaminants, so your disposable gloves don't leave a trace. Nitrile contains no latex proteins, so even those with latex allergies can benefit from the glove's features.
