Immediate energy stimulant that **gets calves on their feet, nursing.**

**CALF
PERK** 
by TechMix

Calf Perk® is a quick stimulant that provides an immediate energy boost for challenged newborns—**increasing their ability to stand and begin eating.**

Calf Perk:

- Enhances calf vigor and suckle reflex
- Stimulates heart rate, breathing and body temperature
- Quick absorbing, fast acting stimulant

Confidence for calves with **digestive upset.**

**Calf
Renova** 
by TechMix

Calf Renova is an easy-to-use oral capsule containing essential oils and probiotics, that **helps to clean the gut and restore beneficial bacteria.**

By quickly addressing gut health issues, recovery support is provided and any slowdown in calf growth can be minimized.

Calf Renova:

- Maintain balance of healthy gut microflora
- Stimulate feed intake
- Use at first sign of digestive upset
- Support immune function

Hydration support you can **just drop** and **walk.**

**BLUELITE[®]
HydraTabs** 
by TechMix

Convenient and **effervescent** electrolyte tablet with multiple energy sources and acidification that **promotes a healthy digestive environment.**

BlueLite C Hydra Tabs™:

- Encourages water and feed intake
- No measuring or stirring required
- Use in water, milk or milk replacer
- Shelf stable and ready-to-use

More than just calcium. Fresh thinking on fresh cows.

YMCP Vital® contains multiple nutrients including calcium, magnesium, potassium and probiotics—essential for preparing cows for a successful lactation. The live yeast in YMCP Vital, promotes feed intake to get them back on feed quickly*.

Electrolyte Supplements

Sx Calf Oral Electrolyte - Calf

Sx Calf Oral Electrolyte and Nutritional Supplement is a novel electrolyte solution fed to calves suffering from dehydration. The product differs from the standard electrolyte formulae in that it contains compounds that affect the balance of the microflora of the gut. A calf requires a 50 ml feeding with rehydration expected very quickly. It can successfully be fed in the field using a syringe. In some cases, a second or third feeding may be required.

Companion Choice Probiotic Powder - For Cats & Dogs

Contains live encapsulated saccharomyces cerevisiae yeast that work through the digestive tract to assist with pH levels and proper digestion. Companions Choice supplements contain over 1 billion CFU's of bacillus and lactobacillus cultures that are proven effective for your pet's digestion. The Prebiotic addition to the supplement is mannan-oligosaccharide (MOS), a yeast cell wall that provides nutrients to the naturally occurring probiotic and acts as a toxin binder to help remove toxins from the digestive system. In addition, Companions Choice contains B vitamins to help with stress, and Vitamin E as an antioxidant.
