# Target the right parasite at the right time

Revolutionize your horse's parasite control regimen with Quest® and Quest® Plus equine dewormers. **Quest**, featuring the potent active ingredient Moxidectin, offers a single-dose solution against a range of internal parasites, including large and small strongyles, ascarids, bots, pinworms, hairworms, and stomach worms. Experience ease-of-use with its low volume dosing, ideal for adult horses, foals over 6 months, and breeding mares.

Elevate your deworming routine with **Quest Plus**, combining Moxidectin with Praziquantel to tackle tapeworms alongside the spectrum covered by Quest. This single-dose powerhouse not only ensures thorough parasite protection but also simplifies administration, keeping your horse healthy and happy.

Long Live  
THE Horse.

## Dewormers

### Pastes

#### Quest Gel Wormer

For use in horses, ponies, breeding mares, stallions and foals over 4 months of age for the treatment and control of large and small strongyles, roundworms, pinworms, hairworms, stomach worms, bots and encysted small strongyles. Store Between 15-30°C and do not freeze.

KVS	Size	Active Ing	Mfg.
014-575	10.9ml	Moxidectin	Zoetis

#### Quest Plus Gel Wormer

Same gel formulation as Quest - disperses well and dissolves in the horse's mouth. For the treatment of infections due to internal parasites, including tapeworms and bots in horses and ponies four months of age and older. Treats up to 600kg/tube. Store Between 15-30°C and do not freeze.

KVS	Size	Active Ing	Mfg.
014-576	11.5ml	Moxidectin / Praziquantel	Zoetis

#### Safe-Guard Paste

A 10% paste wormer for horses, foals, ponies and pregnant mares. Effective against small and large strongyles, pinworms and ascarids. <1 syringe will deworm an 1100lb. horse.> Apple-cinnamon flavoured. Store below 25°C and do not freeze.

KVS	Size	Active Ing	Mfg.
063-721	25gm	Fenbendazole	Merck

#### Strongid P Paste

Strongid P is a potent equine dewormer containing pyrantel pamoate. It is approved for treatment of large and small strongyles, pinworms, ascarids and the common tapeworm in horses and foals over 8 weeks of age. Each syringe contains enough caramel flavored paste to treat 1200 lb body weight. Store Between 15-30°C and avoid direct sunlight. Do not freeze.

KVS	Size	Active Ing	Pack	Mfg.
014-579	23.6gm	Pyrantel Pamoate	12	Zoetis

## Soluble Powders

#### Piperazine Powder 53%

Our soluble form of flavored Piperazine Powder is indicated for use as a one day wormer for control of round worms in poultry, swine, and horses. It will also control nodular worms in swine, and small strongyles in horses. Dosage varies for age and type.

KVS	Size	Active Ing	Mfg.
002-570	400gm	Piperazine	DVL

#### Safe-Guard Crumbles

Contains fenbendazole at 5000 mg/kg. See label for feeding directions and additional information.

KVS	Size	Active Ing	Mfg.
063-716	4.54kg	Fenbendazole	Merck

# Dewormers

## Soluble Powders
