Prevention is Your Best Measure Against Disease.

Neogen® can help provide more protection and proven performance

Synergize® Disinfectant has been the industry standard for swine and poultry producers since 2004. Its unique combination of power and economy have made it an integral part of biosecurity programs for many of today's leading food animal producers.

Farm-Foam™ EVO is a phosphate-free alkaline detergent with high-foaming action increases contact with surfaces, allowing for better penetration and emulsifying of organic and inorganic soils. A pre-disinfection step that is good for the environment.

Neogen Viroxide Super™ is the perfect complement to Synergize in a "double-disinfecting" or rotational program. This powerful, powdered oxidizing compound provides broad spectrum kill of poultry and swine related pathogens, including HPAI, PEDv, and ASFv.

Chlorinated Tray Wash EVO is a chlorinated, low-foaming cleaning compound specifically designed for washing trays, plastic chick boxes, egg cases, and filler flats in automatic tray washers. It is also ideal for washing shell eggs intended for table use, break out, or hatching. Chlorinated Tray Wash EVO is low-foaming and ideal for use in chemical proportioners as well as in manual feeding operations. It is an excellent clean-in-place (CIP) for egg breaking operations.

Look to Neogen for your
biosecurity solutions...
