Electronic ID Readers & Accessories

EID Reader - Case

Carrying case for the Allflex Electronic Tag Reader.

KVS	Vendor
EIDCASE	Allflex

EID Reader - DTR-5

A rugged and versatile radio-frequency RFID reader. The new DTR-5, with internal bluetooth, allows operators the freedom to scan and store more than 100,000 tag numbers virtually anywhere they choose. Additionally, a vibrating alert system has been incorporated into the handle to facilitate the tag reading process in noisy environments or in situations where visual confirmation is difficult. ISO compliant and reads both FDX and HDX EID tags.

KVS	Size	Vendor
DTRREAD 2	45cm	Allflex

EID Reader - RS-420

Features of the RS420 Reader include:

- Screen shows scanned EID number and the qty of EIDs scanned
- Several visual indicators and an audible beeper ensure confirmation of scan
- Internal rechargeable batter pack provides cable-free operation
- Internal memory to store EIDs or can transmit real-time
- Apple iOS compatible (iPhone and iPad)

The RS420 reader can read HDX (Half Duplex) and FDX (Full Duplex) EID tags.

Pro Kit contains RS420 Reader, Data Cable, Fast Charger, Extra Battery and Hard Case

EID Reader - XRS Stick Reader

The most reliable, versatile and intelligent EID tag reader in the world. The XRS has the greatest read rate and range, with battery life of more than double the competing products in the market.

- Lightweight, portable and suitable for cattle, sheep, goats, swine, and deer
- Large, easy-to-read display
- Stores up to 20,000 scanned tags in its memory
- Connects automatically via Bluetooth® to your Bluetooth indicator
- Customizable alerts for pre-chosen animals
- Option to ignore duplicate IDs
- Up to 1,000 reads per minute

Tissue Sampling Applicators

Tissue Sampling Applicator

The TSU Applicator can be used on cattle, sheep, pigs, deer, alpacas, camels, fish and more. It is an ergonomic sampling plier which allows quick loading and sampling, most animals are not aware a sample has been taken. The sharp cutter assembly includes a double acting system that ensures the sample is always pushed in and sealed into the sample tube. It's easy loading, even with large fingers in a cold environment.

Tissue Sampling Units

Are you looking for a quick and easy DNA sampling method that is reliable, easy to transport, user-friendly and efficient to process at the lab? Allflex Tissue Sampling Units (TSU) provide all of this and much more. These units take an ear punch which can replace tail hair, blood, semen or other sample types used for DNA, Pestivirus or other serology testing. TSUs can be used on cattle, sheep, pigs, deer, alpacas, camels, fish, and more.
