

Equine

Equestre

When Performance Counts!

**COWBOY
MAGIC®**
cowboymagic.com

*A really great shampoo
that smells good too.*

*Conditioner detangles,
repairs and strengthens
lifeless hair.*

*Takes yellow
stains out as it
brightens hair
of all colors.*

*Quick cleaning, no-rinse,
waterless shampoo.*

*Detangle
and shine
hair
instantly.*

*Leaves hair with a super
shine, helps repel show ring
dust and dries fast.*

LOZANA
Equine Health Products

PSYLLIUM DEFENSE

Psyllium pellets, with probiotics and camelina oil, formulated from clinical trials to promote prevention and removal of sand accumulation in the digestive system of horses. To help maintain general health and promote digestive functions. To promote the maintenance and equilibrium of a normal microbial flora in the digestive tract.

IF USED AS RECOMMENDED, PSYLLIUM DEFENSE:

- Supports natural defense.
- Promotes a healthy gut micro-flora and digestive function.
- Helps to maintain a balance in intestinal health, proper metabolism and well-being.
- Helps to maintain and promote regularity and consistency of stools.
- Helps to maintain healthy immune system function.
- Provides probiotic support to promote the growth of beneficial bacteria in the intestines.
- Contains camelina oil, a rich source of Omega-3/6/9 fatty acids, and natural vitamin E (antioxidant).

CONTRAINDICATION: Not for use in diabetic animals or in animals with an intestinal tract blockage.

Consumption of sand and dirt by horses can cause chronic diarrhea, weight loss and colic caused by irritation and obstruction of the gastrointestinal tract.

In two reports, the incidence of sand colic varied from 5% to 30% of all cases of colic. Diagnosis of intestinal sand accumulation is made by one or more of the following: auscultation of the ventral abdomen, fecal sand sedimentation, ultrasound and radiography.

Daily supplementation with a probiotic, prebiotic and psyllium supplement demonstrated enhanced fecal sand clearance in clinically normal horses.

RECOMMENDED DOSE: Administer orally 220g per day (3 included measure) for 7 consecutive days with grain, once a month.

INGREDIENTS: Psyllium seed husks, alfalfa meal, Saccharomyces Cerevisiae yeast culture, yeast brewers dehydrated, camelina oil, flavor.
